

Students and Parents who wish to apply for scholarships awarded by the Community Foundation of Warren County should go to the Community Foundation Website:

<https://cfowc.org/>

Under the drop-down tab “RECEIVE” click on Scholarships. That will take the person to this page:

<https://cfowc.org/receive/scholarships/>

There is information about the scholarship programs offered on this page. However, the scholarship application will not be available until the end of January 2022. Interested students and parents should sign up for a reminder by entering an email address. Once the application is open and available for students to apply, the Foundation’s computer system will send a reminder email notifying the email owner that the scholarship application is available.

Students and parents should use an email address that is used and monitored regularly. Warren County School District Student email addresses will no longer be valid once a student graduates. Most of the communications between the Foundation and the student will be by email, so it is important to use a good email address.

For more information contact the Community Foundation at lag.cfwc@westpa.net or call 814 726-9553
